Front-End Developer \_ UI/UX designer

[Export to PDF.](#)[Download](#)

### Summary

Front-End Developer with hands-on experience in building modern, user-centric web applications within innovative startup environments. Proficient in JavaScript, front-end frameworks, and single-page application (SPA) development with real-time communication. Skilled in component-based architecture, delivering responsive, high-performance interfaces that enhance user comfort and align with contemporary design trends. Additionally, developed custom WordPress plugins to extend functionality and improve user experience.

### Experience

#### Software Engineer

March 2024 – Present

- Developed and maintained scalable web applications using React and Node.js, improving load times by 40%.
- Integrated third-party APIs and optimized backend services, reducing server costs by 15%.
- Conducted code reviews and mentored junior developers, fostering a culture of clean code and continuous learning.

#### IT Support Specialist | Kurdistan University | Sanandaj, Iran

October 2018 – February 2022

- Provided technical support to over 200 staff and students, resolving issues with hardware, software, and networks.
- Implemented a ticketing system that reduced response time by 50%.
- Trained faculty on new digital tools, increasing adoption of online learning platforms.
- Maintained and upgraded campus IT infrastructure, ensuring 99.9% uptime.

### Education

B.Sc. in Computer Engineering | University of Kurdistan (UoK)

- Familiarity with functional and object-oriented programming using C and Java languages.
- Limited acquaintance with Security of Network and hacking.
